

Services.AzureStorageService.
AzureStorageService

```
graph LR; A[Services.AzureStorageService.  
AzureStorageService] --> B[Services.IDotEnvSecrets.  
GetBlobStorageConnectionString]; A --> C[Services.IDotEnvSecrets.  
GetBlobStorageContainerName];
```

The diagram illustrates a class dependency. A central box on the left, representing the `Services.AzureStorageService` class, has two blue arrows pointing to the right. Each arrow points to a box representing an interface method from `Services.IDotEnvSecrets`. The top arrow points to `GetBlobStorageConnectionString`, and the bottom arrow points to `GetBlobStorageContainerName`.

Services.IDotEnvSecrets.
GetBlobStorageConnectionString
